

# NBCC would like to extend a warm welcome to you...

*A welcome message from NBCC's Student Accommodations Advisors*

At NBCC we want to ensure that all students who require learning assistance will be able to access the necessary resources while maintaining their independence and dignity during their studies. We accomplish this by providing reasonable accommodations to students, as well as having Student Accommodations Advisors available at each campus. For us to provide the appropriate academic assistance, we encourage students to self-identify when applying or at registration. If you have identified a need, you will be contacted to set up a meeting to determine your individual learning plan. You may also drop in to visit the Accommodations Advisor at your local campus. We look forward to meeting you!

For information on other Student Services, please visit our website at [www.nbcc.ca](http://www.nbcc.ca).

College works.

Make it work for you.
